Version 1,September,2025

UNFORGETTABLE GLIMPSES

The elegant and efficient body features golden ratio line and mirror coating technology. GC15 boasts the drag coefficient of 0.365, making it excellent among the vehicles of its kind.

ALL-3D MODULAR PLATFORM

This platform features a novel concept of modular, universal and dimensional engineering design to ensure:

- LENGTH RANGES
- POWERTRAIN OPTIONS
- PURPOSES APPLICATION
- TERRAIN CONDITIONS

GOLDEN DRAGON' S FIRST DIGITAL PURE ELECTRIC BUS

Golden Dragon' s first fully electric digital bus, and it combines boldness with practicality. One of its highlights is the lighting system: Matrix LED daytime running lights, flowing turn signals, and a striking full-width tail light.

But these lights are not just about style — they also support smart functions. When night falls, the HD headlights together with fog lamps expand visibility by 25%. The whole body follows golden ratio lines with a mirror-finish coating, creating a design that is both elegant and functional.

GENEROUS HEIGHT INFINITE COMFORT

With 3.795 meters height, the vehicle offers a confident profile and a relaxing interior space. Ample headroom ensures passengers can move freely and travel comfortably.

BEYOND THE HORIZON WITHIN YOUR VIEW

26.5m² Large side windows with enhanced transparency bring natural light into the cabin. With luggage racks set at an optimized height, every journey offers a passing landscape with clear and open view.

SPACIOUS STORAGE JOYFUL JOURNEY

A 10m³ through-luggage compartment provides enough space for 63 suitcases (20-inch).

REDEFINITION OF DRIVING EXPERIENCE

A NEW GENERATION OF INTELLIGENT CABIN

GC15 is equipped with the high-performance computing power chips, Golden Dragon's ORO AI voice engine, system for multi-dimensional interactions between voice engine and touch control, and all-round smart temperature control system.

INTELLIGENT ARMREST

The armrest provides the integrated shift mechanism, door control unit, E-stop switch and central control system to ensure less errors in operation, a higher level of vehicle safety and a better driving experience.

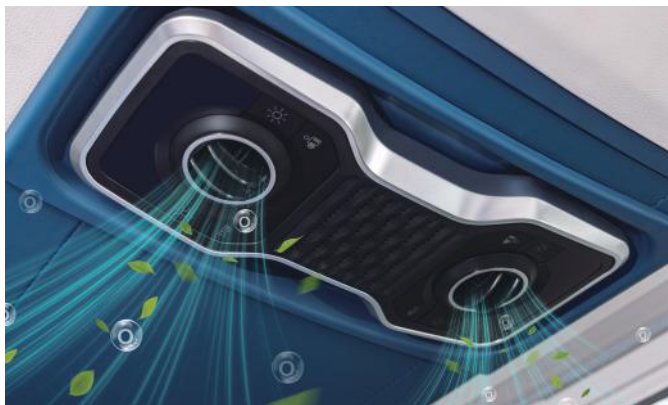

JOYFUL RIDING EXPERIENCE

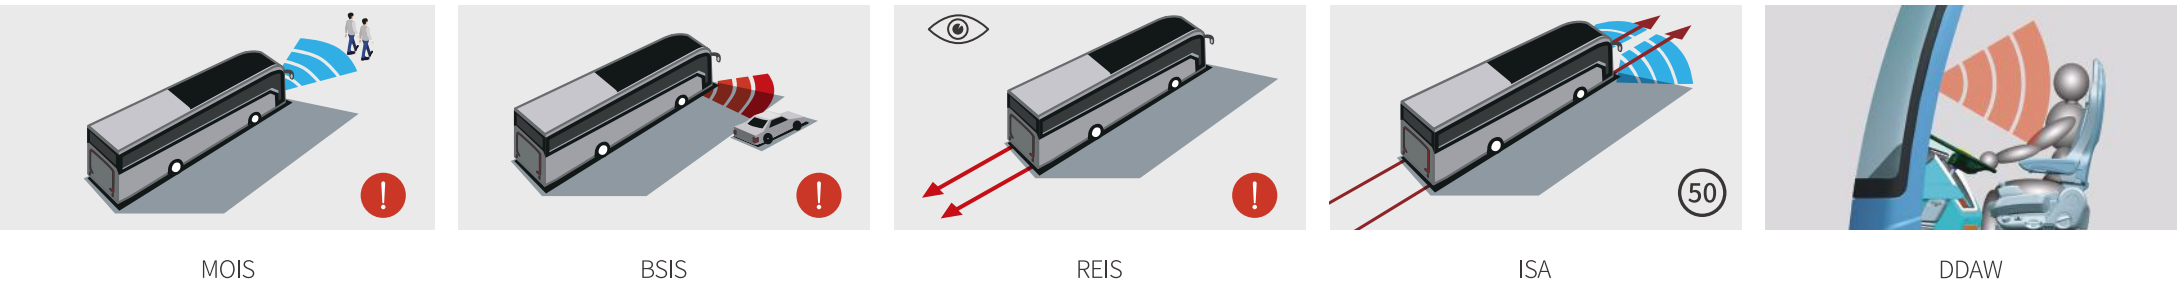

DIFFUSE REFLECTION AMBIENT LIGHTING

Automatic control of the vehicle’ s internal and external light sources ranging from floor courtesy lamp to interior reading lamp are provided to foster a warm and comfortable atmosphere.

SOFT AND WHOLESOME AIR + FRAGRANCE DIFFUSER WITH DOUBLE SPRAYS

With the independent control of two air supply systems, the diffuser is equipped with two atomizers to provide spatial fragrance.

| Model Information | Announced Model | | | |
|-------------------|--------------------------|--|----------------------------|---|
| | 6152 | | | |
| Basic Parameters | Length (mm) | 14895 | Driving range (km) | 600 |
| | Width (mm) | 2550 | Wheelbase (mm) | 7100+1515 |
| | Height (mm) | 3830 | Height inside the bus (mm) | 2030 |
| | Rated passenger capacity | 62 | Maximum total mass (kg) | 27500 |
| Item | | Standard Configuration | Item | Standard Configuration |
| Chassis | Drive motor | Permanent magnet synchronous water-cooled motor | Suspension | Air suspension |
| | Peak power (kW) | 500 | Tyre | MICHELIN 295/80R22.5 tubeless radial tire |
| | Peak torque (N.m) | 4800 | TPMS | Equipped |
| | System assembly | Golden Dragon full electric drive system | Steering gear | Electro-hydraulic steering gear |
| | Battery (kWh) | CATL 704.17 (BC5 II) | Steering system | Electrical hydraulic assist |
| | Front axle | ZF8T Independent suspension | Electric air pump | Equipped |
| | Rear axle | ZF13T rear axle + GK 8T active steering axle | Safety device | Battery Box Inert Gas Prevention and Control System |
| | | | | Equipment compartment fire extinguisher |
| | Service brake | Dual-circuit pneumatic brake with the front and rear discs | Electric brake system | WABCO EBS and ASR+ESC/ESP+AEBS |
| | Parking brake | Energy storage spring parking brake | Thermal management system | Complete vehicle thermal management |
